To the Stockholders of:

El Paso, Texas, October 11, 1919.

El Paso Ranger Oil Company

The Board of Trustees of the El Pano Ranger Oil Company announce the elec-Lon of Senator R. M. Dudley (of the firm of Dudley & Orr, Contractors) to fill the vacancy caused by the death of Frederick Goodman. In making this announcement your Trustees feel that it will be difficult to replace the been business ability and untiring labor and effort which Frederick Gondman gave to the affairs of the El Paso Ranger Oil Company. Nevertheless, in securing R. M. Dudley your Trustees believe that they have made a most wise selection to fill the vacancy on the Board, and that the stockholders should feel highly gratified in Mr. Dudley's acceptance of the position of trust which he will occupy in the El Poso Ranger Oil Company.

In addition to serving as Trustee, Mr. Dudley has agreed to accept the position as Field Manager of the Company. Mr. Dudley left for Eastland yesterday where he will make his headquarters, and give his best efforts to the supervision of all the El Paso Ranger Company's affairs in the field, and he will co-sparate with the Jones Drilling Company, who are now actively drilling El Paso Ranger's first well. This well was spudded in September 8th by the same drilling company which drilled the Ocean well, and it should probably reach the first shallow sand during the next thirty days. He will also, in connection with the Board of Trustees, take immediate steps for the drilling of El Paso Ranger's second well on the Baggett tract near the Thorpe-Sammies well.

Mr. Dudley will regularly furnish direct field reports of El Paso Ranger's progress, to the Company's office at El Paso. These reports will be published for the information of the stockholders and the general public, in the press.

The expense of drilling wells and sub-dividing oil lands is so enormous that it must be met either by the co-operative method, such as we have inaugurated, or by a large oil corporation, which means that the incorporators get the LION'S share

A Warranty Deed Issued for Each and Every Lot

Don't wait until developments begin and the opportunity is passed. Get in now while the proposition is still young. The early buyers will make the big profits, for they come in while the prices are lowest and should be able to sell after the first big well comes in for almost any price they wish to ask. Or, as most of them will wish to do, hold their lots and participate in the fortune which comes flowing out of the many wells. This is your opportunity.

BUY A LOT AND SHARE IN THE PROFITS!
